

Amendments to the Claims:

This Listing of Claims replaces all prior versions and listings of claims in the application:

Listing of Claims:

- 1.(Currently Amended) A vehicle mounted peripheral device station, comprising:
 - a. a vehicle seat adapted to receive a removable headrest, said vehicle seat including two receptacles for receiving an adaptor;
 - b. a peripheral device, said peripheral device unattached to said removable headrest;
 - c. an adaptor for replacing said removable headrest and for securing said peripheral device to said vehicle seat, said adaptor including a two posts and a support surface with a top surface, a bottom surface and a plurality of edges, said posts directly attached to said bottom surface; and
 - d. means for securing said peripheral device to said adaptor.
- 2.(Cancelled)
- 3.(Cancelled)
- 4.(Currently Amended) The vehicle mounted peripheral device station of claim 3 1, further including a plurality of side walls attached to said plurality of edges.
- 5.(Previously Presented) The vehicle mounted peripheral device station of claim 4, wherein said plurality of side walls are spaced to frictionally receive said peripheral device.
- 6.(Previously Presented) The vehicle mounted peripheral device station of claim 4, wherein at least one of said plurality of side walls is noncontinuous.

7.(Previously Presented) The vehicle mounted peripheral device station of claim 4, wherein said plurality of side walls includes a front wall, a first side wall, a second side wall, and a back wall.

8.(Previously Presented) The vehicle mounted peripheral device station of claim 7, wherein said front wall has a reduced height.

9.(Previously Presented) The vehicle mounted peripheral device station of claim 7, wherein said back wall is noncontinuous.

10.(Previously Cancelled)

11.(Previously Presented) The vehicle mounted peripheral device station of claim 1, wherein the securing means is taken from the group including hook and loop fasteners, straps, adhesives or combinations of one or more of these.

12.(Cancelled)

13.(Cancelled)

14.(Previously Presented) The vehicle mounted peripheral device station of claim 1, wherein said peripheral device is taken from the group of printers, fax machines, copiers, scanners and combinations thereof.

15.(Currently Amended) A vehicle mounted peripheral device station for a vehicle seat adapted to receive a removable headrest comprising:

- a. an adaptor for replacing said removable headrest ~~and~~ , said adaptor having at least one post two posts;
- b. a peripheral device attached to said adaptor, said peripheral device unattached to said removable headrest and positioned directly above said posts; and
- c. means for securing said peripheral device to said adaptor.

16.(Cancelled)

17.(Currently Amended) The vehicle mounted peripheral device station of claim ~~16~~ 15, wherein at least one of said posts is adjustable to modify said distance between said at least one post and said second post.

18.(Previously Presented) The vehicle mounted peripheral device station of claim 15, wherein said at least one post is pivotable.

19.(Previously Presented) The vehicle mounted peripheral device station of claim 15, wherein at least one of said posts is vertically pivotable.

20.(Currently Amended) A vehicle mounted peripheral device station, comprising:

- a. a vehicle seat adapted to receive a removable headrest;
- b. a peripheral device, said peripheral device unattached to said removable headrest;
- c. an adaptor for replacing said removable headrest and having ~~at least one post~~ two posts, said ~~at least one post~~ posts detachably connected to said vehicle seat;
- d. a support surface connected to said adaptor, wherein said support surface is a horizontal plate with a plurality of edges, said support surface for receiving said peripheral device;
- e. at least one continuous side wall connected along the entire length of at least one of said plurality of edges; and
- f. means for securing said peripheral device to said plate.

21.(Cancelled)

22.(Cancelled)

23.(Currently Amended) The vehicle mounted peripheral device station of claim ~~22~~ 20, wherein ~~at least one said plurality of side walls are~~ continuous side wall is spaced to frictionally receive said peripheral device.

24.(Currently Amended) The vehicle mounted peripheral device station of claim ~~22~~ 20, ~~wherein at least one of said plurality of side walls is~~ further including at least one noncontinuous side wall.

25.(Currently Amended) The vehicle mounted peripheral device station of claim ~~22~~ 24, wherein said ~~plurality of side walls includes~~ at least one continuous side wall and at least one noncontinuous side wall collectively include a front wall, a first side wall, a second side wall, and a back wall.

26.(Previously Presented) The vehicle mounted peripheral device station of claim 25, wherein each of said walls has a height and said front wall height is less than said height of each of said side walls and said back wall.

27.(Currently Amended) The vehicle mounted peripheral device station of claim 25, wherein said back wall is said at least one noncontinuous side wall.

28.(Previously Cancelled)

29.(Previously Presented) The vehicle mounted peripheral device station of claim 20, wherein the securing means is taken from the group including hook and loop fasteners, straps, adhesives or combinations of one or more of these.

30.(Currently Amended) The vehicle mounted peripheral device station of claim 20, wherein said vehicle seat includes ~~at least one receptacle~~ two receptacles to receive said ~~at least one post~~ two posts.

31.(Cancelled)

32.(Previously Presented) The vehicle mounted peripheral device station of claim 20, wherein said peripheral device is taken from the group including printers, fax machines, copiers, scanners and combinations thereof.

33.(Cancelled)

34.(Currently Amended) The vehicle mounted peripheral device station of claim ~~33~~ 20 wherein at least one of said posts is adjustable to modify said distance between said at least one post and said second post.

35.(Currently Amended) The vehicle mounted peripheral device station of claim 20, wherein said at least one ~~post~~ of said posts is pivotable.

36.(Previously Presented) The vehicle mounted peripheral device station of claim 35, wherein at least one of said posts is vertically pivotable.
